THE MOST STYLISH PARIS
HOTELS *FOR A CHIC CITY*
SOJOURN

Maison Delano

Paris is *always* a good idea – especially when you're checking into one of the city's most exceptional hotels. From gilded, palatial institutions on the Champs-Élysées to design hideaways in SoPi, these addresses are the first word in capital-of-romance chic. By NATASHA BIRD

Massé prides itself on being a chic, understated urban refuge with cool artistic touches, providing guests with a truly authentic Parisian experience

Massé

Tucked onto a quieter stretch of Rue Victor Massé, just steps from Rue des Martyrs, Massé offers a different kind of Paris stay. This place is for guests who prefer a neighborhood rhythm over palace polish. Set within a classic Haussmann building in SoPi (South Pigalle), this four-star address isn't a grab for gilded opulence. Instead, it offers character and connection.

Rooms are thoughtfully designed to feel lived-in, in a chic Parisian artist's loft kind of way, rather than any shiny soullessness, encouraging guests to experience the city a little like the locals do. Downstairs, the bar usually teams with a mix of creatives, musicians and in-the-know Parisians, huddling over well-crafted small plates. Envisioned by brother-and-sister duo Eole and Corto Peyron, the hotel draws on their parents' heritage, blending Mediterranean conviviality and quiet adventure.
